

Create your Drag King Persona

Drag Kings are a way to explore masculine stereotypes, different male cultures and more. Drag Kings can be anything you want them to be - often they are women and non-binary people who use costume and performance to create a male character - but the exciting thing is to play with gender and performance in whatever feels good to you. For our project Manifest we worked with drag king Thrustin Limbersnake, one of the brilliant PECS collective of drag kings.
